

Home solutions designed to help you save money and energy

Energy Optimizer: Reduce your heating and cooling costs with a free, professionally installed Honeywell programmable thermostat.

Meter-Based Surge Protection: Safeguard expensive electronics from damaging power surges right at your meter. Meter-based Surge Protection is not regulated by the Missouri Public Service Commission.

Energy Analyzer: Use this free, interactive tool to understand your home energy use and learn how you can conserve energy and save money.

Cool Homes: Upgrade your cooling equipment with a higher efficiency system and receive rebate incentives up to \$850.

Change a Light (Missouri only): Receive instant \$2 cash-back rebates on purchases of compact fluorescent lights at participating stores.

Home Performance with ENERGY STAR® (Missouri only): Receive rebates for improving efficiency in your home by having a Home Performance with ENERGY STAR contractor perform a home audit.

Weatherization: Take advantage of energy efficiency services for your home, if your income qualifies.

AccountLink: Access your bills, energy usage and transaction records online, pay electronically and even receive e-mail bills.

Paperless Billing: Delivers your bill via e-mail, simplifying your life and conserving natural resources.

Budget Billing: Averages your last 12 bills giving you a fixed monthly payment making your bills more manageable.

One-time Payment: Control how much you pay each month by authorizing credit or debit charges or electronic withdrawals from your bank account. Credits payment to your KCP&L account within one business day.

Automatic Payments: Pay your bill automatically on each month's due date by authorizing recurring credit or debit charges or electronic withdrawals from your bank account.
